

Outils A1 – WP custom work

1. Need to change the text in the Cart widget.

Example: <https://outilsa1.bmhost.net/en/categorie/saws/>

Request:

In English, change

- "View Cart" to "View Order"
- "Checkout" to "Submit Order"

In French, change

- "Voir le panier" to "Voir la commande"
- "Validation de la commande" to "Soumettre commande"

2. On the product page, the breadcrumb needs to be translated.

Request:

In French, change the breadcrumb to: Vous êtes ici : Accueil > ...

Also, verify that the links work.

3. On the product page, after adding an item to the cart, the messages say Cart.

Billing details

Détails de facturation

Request:

In English, change “Billing Details” to “Your Information”.

In French, change “Détails de facturation” to “Vos informations”.

6. Have WooCommerce support products with \$0 pricing for Quote Request.

Request:

I have started to follow the steps in this guide, but have not changed any of the labels:

<https://www.hongkiat.com/blog/price-request-catalog-woocommerce/>

Customers should be able to order products at \$0 and see these price as “TBD” / “À déterminer”, and be able to order products with prices.

7. On the Cart page, we need to remove some fields.

8. In general, on the website, the titles should be in title case, not capitalized.

Fusils À Clou Et Impact

Nail And Impact Guns

Request:

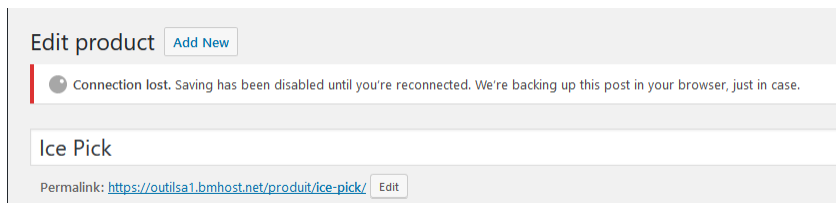

In English, change from capitalized to title case. Look into integrating: <http://individed.com/code/to-title-case/>

Example: Nail and Impact Guns

In French, only the first letter of the first word should be capitalized.

Example: Fusils à clou et impact

9. When editing products, there is often an issue with **Connection lost**.

Request:

- Please review why this is occurring and provide guidance on how to prevent it.
