

## Webguruz Technologies Pvt. Ltd.

(((We Create Online Presence, Not Just Code!)))

### Intro:

Webguruz has established itself as a prominent force in IT-services, helping clients globally and locally. **Turning every project into a new milestone**, consistent success has always been cherished.

As businesses started taking its place in the World Wide Web, a need for constant support was also being conceived. That's where we come in, **offering comprehensive solutions** for diverse platforms like PHP, Dotnet, Apps, digital marketing, Designing, Branding to name a few.

Webguruz family offers unparalleled solutions like Consulting, Systems integration, Apps-Websites development, Maintenance, Package implementation, R&D and Training. **Which one can we help you with today?**

### Approach:

**We target client's delight, not just satisfaction.** We have maintained loyal client-base thanks to our out-of-the-box thinking and keen grasp on detailed requirements of our clients. We have our own procedure which includes questionnaires, QA of existing systems, competition analysis, using traffic analysis so that there is no stone left unturned in the way to success.

At Webguruz, developers follow the **SDLC models for development, with Agile-method approach**. Long-term projects are met with high detailing and review meetings. Client's feedback and inputs are vital parts of this process. We have modular and/or time-frames approaches.

### Progression:

Started in 2008, with just a single developer and sheer will to strive forward, steadily working its way to the top, Webguruz now enjoys collaboration of more than 70 experts. With management personnel having more **than 30 years worth of** experience under their belt, Webguruz always explored new horizons, achieving the **perfect mechanism to deliver the custom solution** that fits our clients.

As Webguruz always wanted to leave its mark on clients, Webguruz represents itself on 3 major lands: India, Australia and United Kingdom, and we are progressing.

## Strength:

The strength of Webguruz family keeps growing constantly to cope with the increasing work load from increasing client-base. **New talents have always joined hands with us** which has been beneficial for everyone. If you want latest skill-set in the market or solutions in bulk, we can do it. We have expert technicians for end-to-end solutions, including Developers, Designers, Testers-QA experts, IT Team, Media team and others.

## Vision:

We aim to give our clients a complete package of exceptional service, multi dimensional goals, and timely delivery at an extremely affordable cost. We offer a comprehensive bouquet of services to promote and optimize your business model with technical support for network and database, website design, website development, mobile application development, web hosting to content writing, graphic art and design and internet marketing and promotion.

## Portfolio:

With more than 8 years of hard work, we have generated **some unique ideas** and a long list of successful projects. We have solved intricate problems for many businesses and verticals, thus realizing our name, Web'Guruz'. Some of the latest projects we have delivered that represent our efficiency to the best are:

## Achievements:

Though success is not limited to just one factor, but to show a number, Webguruz has **aproven record with some brilliant statistics** to support its claim.

- A well reputed online community, Upwork declares that Webguruz agency has helped clients for more than

200,000 recorded hours, making itself one of the best options on the Upwork.

- The numbers of human resources, Webguruz accommodates more than 70 and we started with just 1.
- Webguruz's own IT-team makes sure that work output remains unhindered. Being a well-furnished place to work is nothing short of a success in itself either.
- We have done some excellent and prestigious projects for Government of Haryana, Labour Bureau and Chandigarh Police.
- We have presence in India, Australia, UK and USA.
- Last, but definitely not the least, we have excellent client recommendations that we cherish more than anything.

## Technologies:

We offer solutions in technologies including, but not limited to, Dotnet, ASP MVC, Wordpress, PHP, E-Commerce frameworks, Digital Marketing, Mobile apps development, Designing, 3D Gaming etc. Experts at Webguruz always maintain their skill-set updated. After all, **Adaptation is the key to survival**.

## Life @ Webguruz:

I like working with Webguruz, would be a big understatement. Webguruz entertains some of the most complex problems, so one would naturally think that we all must have been working under intense pressure. But, thankfully that's not the case. Everyone at Webguruz understands that unity is strength. Helping each other makes it easier for us, not to lose our patience to face any big monster.

We enjoy great coffee with some great advice from our colleagues. Also, flexible timings, celebrations and positive attitude bring out the best in all of us. It's no wonder that I don't ever want to leave this place, figuratively speaking. When one joins Webguruz, one joins our family. And our family tends to get through everything; all we do is work together.
