WORK EXPEREINCE

Web Designer | jan 2020
Future work Technologies

Working as Web Designer with responsibilities of web design and UI development for both customer facing and internal applications. With this position I'm working with products development and marketing teams to maintain and further develop the web site/ web application, landing pages, designing online and offline.

- Develop UI in latest HTML5 pattern with fully responsiveness or bootstrap.
- Visualizing and creating the latest designs to fulfil the client requirement.
- Worked in PHP in Visual Studio to implement and maintain UI in project.
- Worked in wordpress to implement and maintain UI in project.
- Able to handle a number of projects simultaneously.
- Knowledge of user interface design methodologies for web applications.
- Detail oriented and well organized with ability to thrive in a deadline driven environment.
- Work closely with team leader and other team members to achieve client objectives.

PROFESSIONAL ATTRIBUTES

- Ability to remain calm and objective in all situations.
- Ability to quickly identify and resolve client problems.
- Able to work autonomously and in a team environment.
- Good sense of humour and the willingness to be part of a team.
