## PROJECTS

### YelpCamp — Web Application

May, 2019

I have created an application where peoples from different part of world can upload there camping gallery. Here I had made use of Node.js and Express as server side language with MongoDB database. You can view my project -> <https://github.com/nirajaky/YelpCamp>

### Blog-App — RESTful Web Application

January, 2019

This is a RESTful Blog app where a user can upload his/her blogs with image, title and description(body). Also, a user can perform CRUD operations for there respective Blog. You can view my project -> <https://github.com/nirajaky/Blog-App>

## EXPERIENCE

### Organized Swachh Bharat Abhiyan Event

March, 2019

I had Organized Swachh Bharat Abhiyan Event in my College campus, where we as a team spread awareness about how to keep our society and environment clean and hygienic.
