PERSONAL PROFILE

Exceptionally motivated and talented designer seeking a new graphic design position to bring more than 21 years of experience in branding, print and web design to assist a fast-growing company with their design campaign. As a skilled designer, I look at the principles and techniques of graphic design in a very hands-on way. I take apart designs and put them back together to learn what makes them work & how to make them beautiful.

Sr. Graphic Designer | UI/UX Designer | Design Coach | Video Editor | Sound Mixer | Web Designer

SOUND MIXING

VEGAS Pro 18

OPERATING SYSTEM

WINDOWS 10 Pro
WINDOWS 8.1
WINDOWS 8
WINDOWS 7,VISTA,XP

CORE STRENGTH

INSTANT DESIGNING

Give me any theme, any concept, I can design a whole lot of designs in various category for that theme or concept within minutes. My ability to adapt to available options makes me different from other designers.

FAST LEARNER

In this fast-evolving technology-driven field, I have a strong ability to learn new software, new tools added in the new version of software very rapidly. I believe I should update myself with current trends & scenario of designing so that it will enhance my design skills.

TAKING INITIATIVE

Along with designing, I always take part in other activities which helps me to enhance my creativity. Right from analysing a magazine cover to a big corporate logo, which makes them unique & stands apart, studies them as to how in several designs those designs were selected to be the face of that product. These kind of exercise are healthy for growth in designing which is a creative field.

CAREER HIGHLIGHTS

DIGIPIX ARTIST
Oct 2020 - Present
Working on projects of every kind from layouts to logos, website templates, social media post design, posters etc. I look at the form and function of design, typography, colour, line, movement.

INIFD - Internation Institute of Fashion Design
Feb 2002 - Aug 2020
My prime objective was teach design software to students. Bring Adobe Creative Suite skills and years of experience working with other high-level design software to create a digital and print design for a variety of purposes.
