Project

2019   E-COMMERCE WEBSITE (TECH CORNER)
Link:- https://github.com/Er-PallaviMishra/E-commerce-Project.git
This project was based on E-commerce website, only focused on computer related products and accessories market. This website has working Front-end and back-end. I mainly worked on the backend of the website with technologies like PHP and MySQL.

2018   CAREER GUIDANCE (ALL INDIA UNIVERSITY)
Link:-https://github.com/Er-PallaviMishra/University-Ranking-Website-Project.git
It was group project. We have designed only Front-End of the website. our main concern was to build a fully functional and interactive client-side using languages like HTML, CSS, BOOTSTRAP and JavaScript.
